WESTERN AUSTRALIAN OFFICE

Quarterly Statistical Abstract

(The figures published in this Abstract are where necessary revised every quarter. Those which appear in this issue consequently supersede any contained in previous issues.)

No. 405

DECEMBER 1967

F. W. SAYER

**DEPUTY COMMONWEALTH STATISTICIAN
AND GOVERNMENT STATISTICIAN**

By Authority: ALEX B. DAVIES, Government Printer

1967

NOTES

Rounding of Figures—Many of the figures appearing in the tables have been rounded (to thousands or, in some cases, millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

Estimates of Population—The estimated population in each State or Territory represents the population ascertained at the Census plus recorded natural increase and recorded net gain from overseas migration for that State or Territory; gains and corresponding losses that result from movements between States and Territories are also taken into account in so far as they are recorded as transfers of State of residence under child endowment procedures or Commonwealth electoral procedures supplemented by results of any special count or sample survey. Holiday, business or other similar short-term movements between States and Territories are omitted. As records of migration by State or Territory are not complete the estimated State and Territory populations so derived are approximate and are subject to revision when the actual population of each State is ascertained at the 1971 Census.

It should be noted that (as described on page 48 of *Quarterly Statistical Abstract* No. 402: March 1967) this method of estimating State or Territory population differs from the method used prior to the 1966 census. However, population estimates between the Censuses of 30 June 1961 and 30 June 1966 have been revised on the basis of the new method, which will also be used from now on until the Census of 1971.

Population Census, 30 June 1966—Tables 1 and 63-71 contain some preliminary results of tabulations of 1966 Census information, together with revised estimates of population for dates and periods between the Censuses of 30 June 1961 and 30 June 1966.

Aboriginal Population—In accordance with the requirements of the Commonwealth of Australia Constitution Act (as provided by section 127 now repealed in terms of the Constitution Alteration (Aboriginals) Act of 1967), particulars of full-blood Aborigines are excluded from the figures shown in Tables 1, 3, and 63-71. For Census purposes, a full-blood Aboriginal is defined as a person who describes himself as having more than one-half aboriginal blood.

External Trade—From 1 July 1965, when a new Australian Customs Tariff was introduced, imports have been classified according to an Australian Import Commodity Classification based on the *United Nations Standard International Trade Classification, Revised*. From 1 July 1966, an Australian Export Commodity Classification, also based on the Standard International Trade Classification, was adopted in the tabulation of export information.

The Standard International Trade Classification follows closely the "Brussels" tariff nomenclature used in the new Australian Customs Tariff. The Standard International Trade Classification consists of 10 broad commodity categories designated "Sections" and comprising 56 commodity "Divisions" which are further divided into 177 commodity "Groups". The structure of the classification serves to provide a summary of data relating to 1,312 basic items of international trade. The Sections, Divisions and Groups, and the relevant reference numbers, are shown in Tables 24 and 25.

In this issue particulars of imports during 1965-66 and 1966-67 and exports for 1966-67 are derived from tabulations prepared in accordance with the Australian Import Commodity Classification and the Australian Export Commodity Classification referred to above. *The figures shown for exports during the twelve months ended June 1966 are estimates derived by allocating particulars relating to individual items of trade, as recorded on the old basis, to the most appropriate commodity description in the new classification.* In some cases, the descriptions of commodity Divisions and Groups, as shown in Tables 24 and 25, are abbreviations of the full text, which is available in the Australian Import Commodity Classification and the Australian Export Commodity Classification issued by the Commonwealth Bureau of Census and Statistics, Canberra.

Finance Companies—The summary of the principal statistics of the lending operators of corporate Finance Companies, shown in Tables 57-59, covers the operations of companies engaged mainly in providing certain credit facilities to the general public (companies and persons). Banks, insurance companies, etc., and companies providing credit to "related companies" are excluded.

The outstanding balance for a particular period cannot be verified by the addition of the amount financed to the previous month's outstanding balance, less collections and other liquidations for the period under review, owing to the amount financed being a "net figure", i.e., it excludes interest, insurance and hiring charges.

Additional information on this subject is available in the mimeographed publications *Finance Companies* issued monthly and annually by the Commonwealth Statistician, Canberra.

The abbreviation "n.e.i.", where it occurs in the tables, denotes "not elsewhere included."

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text outlines various methods for organizing and storing data, including digital databases and physical filing systems. It also mentions the need for regular audits and reviews to ensure the integrity of the information.

2. The second section focuses on the role of communication in achieving organizational goals. It highlights the importance of clear and concise communication, both internally and externally. The text provides examples of effective communication strategies, such as regular team meetings, open-door policies, and the use of various communication channels like email, phone, and face-to-face interactions. It also discusses the importance of listening and understanding the needs and concerns of all stakeholders.

3. The third part of the document addresses the challenges of managing a large and diverse workforce. It discusses the importance of providing training and development opportunities to ensure that employees have the skills and knowledge needed to perform their jobs effectively. The text also touches on the importance of creating a positive work environment that fosters collaboration and innovation. It mentions the need for flexible work arrangements and the importance of recognizing and rewarding employee achievements.

4. The final section discusses the importance of staying up-to-date with the latest trends and technologies in the industry. It emphasizes that continuous learning and innovation are key to long-term success. The text provides examples of how organizations can stay ahead of the curve by investing in research and development, attending industry conferences, and collaborating with external partners. It also mentions the importance of having a clear vision and strategy for the future.

STATISTICS OF WESTERN AUSTRALIA

I—POPULATION AND VITAL STATISTICS

NOTE—Estimates of population and rates of birth, death, marriage and natural increase for the dates and periods between the Censuses of 30 June 1961 and 30 June 1966 have been adjusted in accordance with the preliminary results of the 1966 Census and are subject to further revision when the final results become available. Figures for 1966 and later are also subject to revision. See note *Estimates of Population* on Page 2.

Full-blood Aborigines are not included in the following tables. See also note *Aboriginal Population* on page 2.

No. 1—Population

(a) Most cargoes are recorded in terms of the ton weight of 2,240 lb but some cargo, consisting mainly of bulky commodities, is recorded on the basis of the ton measurement, a unit equivalent to 40 cubic feet of space. Statistics are compiled accordingly in terms of "tons weight" or "tons measurement". In order to provide a ready comparison, as in this table, of the volume of cargo handled at the several ports or in different periods, the amounts recorded in the two categories have been aggregated. In Table 21 details of cargo handled at each port are presented separately on the basis of "tons weight" and "tons measurement." (b) Not available.

(a) Comprises Free Homestead Farms and Reserves.
leases of town and suburban lots.

* Revised.

(b) Comprises perpetual leases, leases of reserves and

VII—PRODUCTION

No. 32—Estimated Net Value of Production

Net Value of Production is the sum available for payment of wages, interest, rent, depreciation, other overhead costs, and for the producer's own income and profit. For Primary Production it is obtained by deducting from the value realised at the principal market all marketing costs and the cost of goods used in production (seed, fertiliser, picking, sprays, dips, fodder, fuel and oil, etc.). For Manufacturing, it is obtained by deducting from the selling value at the factory door the cost of goods consumed in the process of production (i.e., materials used, fuel, power and light, lubricating oil and water, repairs to plant and buildings, tools replaced and containers and packing).

(\$'000)

(a) See Special Note below. (b) Rates for Perth. (c) Rates operative from beginning of first pay-period commencing in the month shown or commencing on or after the date shown.

SPECIAL NOTE—The latest wage rates shown in the "State" section of the above table are those which applied before a decision of The Western Australian Industrial Commission dated 27 June 1967. The terms of this decision were that the minimum weekly wage payable to adult male workers under certain awards be increased from \$36.55 to \$37.55; "that the wage rates for adult workers not in receipt of the 'minimum wage' be increased by 60 cents per week; and that other wage rates be adjusted as if the basic wage for males and the basic wage for females had been increased by that amount". These increases were declared to operate from the beginning of the first pay-period commencing on or after 1 July 1967. The latest wage rates shown in the "Commonwealth" section of the table applied before a decision of the Commonwealth Conciliation and Arbitration Commission in June 1967 to eliminate basic wages and margins from its awards and to introduce total wages to operate from the beginning of the first pay-period commencing on or after 1 July 1967. Total wages for adult males and adult females were to be increased by \$1 a week from the same date.

(c) Not available.

(d) Includes 15,433 informal votes.

(e) Uncontested District.

(f) Includes 9,634 informal votes.

XV—BUILDING

No. 52—Building Permits and Approvals

Statistics in tables contained in this publication have been compiled from :

- (a) building permits issued by local government authorities in Western Australia to private persons and firms for operations in areas subject to building control, i.e., "private" ownership building, and
 (b) information from a number of sources on contracts let, work commenced or work authorised by government, semi-government and local government authorities, i.e., "government" ownership building.

Building is classified as "Private" or "Government" according to ownership at date of commencement. Thus "Government" includes buildings erected for Commonwealth and State Governments, semi-government and local government authorities either by contractors or by day labour, whether these buildings are for their own use, for rental, or for sale after completion. Buildings erected for private ownership, or which are financed or supervised by government authorities but erected for *particular persons*, are classified as "Private".

Prior to 1 July 1966, additions valued at \$10,000 or more to buildings other than houses were classified as "new" buildings. From 1 July 1966, alterations and/or additions valued at \$10,000 or more to existing buildings of all types are included as "new" buildings.

The value of land on which the projected buildings are to be erected is not included in the values shown.

No. 53—New Buildings Completed

The figures in this table cover the operations of all builders who accept contracts for the construction of new buildings, "day labour" building by governmental agencies and the activities of "owner-builders."
The value of land on which the buildings were erected is not included in the values shown.

(a) Charges, etc., which are accrued and unpaid at the end of period concerned are included. (b) Amounts shown in this column are intended to provide a measure of total balances outstanding. It should be noted, however, that movements in this aggregate may also involve changes in the proportions of the two components of the series to the total.

XVIII—MOTOR VEHICLE REGISTRATIONS

In Western Australia there is no single authority responsible for the licensing of vehicles. The Traffic Branch of the Police Department licenses vehicles in the Metropolitan Traffic Area as defined in Regulations made under the Traffic Act, 1919-1966. Outside the Metropolitan Traffic Area each Town or Shire Council is responsible for the licensing of vehicles in its own district.

(a) As constituted under the Traffic Act and Regulations. The Metropolitan Traffic Area was enlarged, with effect from 1 October 1966, to include the whole of the Shire of Armadale-Kelmscott instead of, as formerly, only part of the Shire. (b) Includes Commonwealth-owned vehicles (other than those of the defence services) listed with the Commonwealth Registry, Canberra. At 31 March 1967 there were in Western Australia 1,674 such vehicles, comprising 177 motor cars, 250 station wagons, 451 utilities, 303 panel vans, 454 trucks, 19 omnibuses and 20 motor cycles.

(c) Current statistics, as well as annual statistics back to 1945, are also available for the Perth Statistical Division, which was constituted, with effect from 1 January 1966, by amalgamation of the former Metropolitan and Swan Statistical Divisions. At 31 March 1967 there were 211,317 motor vehicles on register in the Perth Statistical Division. They comprised 140,436 motor cars, 26,805 station wagons, 37,569 utilities, vans, trucks, and omnibuses, and 6,457 motor cycles and motor scooters. (d) Census figures, 31 December. (e) Comprises 195,447 cars, 39,763 station wagons, 41,421 utilities, 11,723 panel vans, 32,530 trucks, 1,737 omnibuses (including 50 trolley-buses) and 8,849 motor cycles and motor scooters.

(a) See note (a) to previous table.

(b) Includes Commonwealth-owned vehicles other than those of the defence services. (c) Statistics are also available for the Perth Statistical Division; see also note (c) to previous table. During the nine months ended September 1967, registrations of new motor vehicles in the Perth Statistical Division numbered 18,754, comprising 11,657 motor cars, 2,872 station wagons, 3,648 utilities, vans, trucks and omnibuses, and 577 motor cycles and motor scooters. (d) Including motor scooters.

(a) Non-casualty accidents are those which do not result in death or injury, but where total damage to property is estimated to be more than \$50. (b) Includes riders of motor scooters. (c) As defined in Regulations made under the Traffic Act, 1919-1966. See note (a) to Table 60. (d) Statistics for the Perth Statistical Division from January 1966 are also available on request.

XX—POPULATION CENSUS: 30 JUNE 1966

The tables in this section contain some preliminary results of the Population Census taken on 30 June 1966. The figures were compiled during the taking of the Census by field personnel and are subject to amendment.

Estimates of population for dates and periods between the Censuses of 30 June 1961 and 30 June 1966 have been revised in accordance with these preliminary results and will be further revised when the *final* results become available.

Particulars of full-blood Aborigines are excluded throughout the tables; see note *Aboriginal Population* on page 2.

EXPLANATORY NOTES

For the purpose of presenting statistics obtained at the Census of 30 June 1966, new methods have been used in the delimitation of metropolitan areas and certain other urban centres. Briefly, these are as follows:

- (i) Around each capital city and each town with a population of 75,000 or more *two* boundaries have been drawn.

The *outer* boundary, which is fixed, circumscribes the area in close economic and social contact with the main city or town. These areas are designated Statistical Divisions (for State capital cities) or Statistical Districts (for Canberra and some other cities).

The *inner* boundary indicates the area within which, at the time of the Census, there was a density of at least 500 persons per square mile. This density is determined for each Census collector's district (the smallest geographical area available). From Census to Census as urbanisation proceeds this *inner* boundary will move outwards to encompass peripheral development. Some specified areas of lower density (*e.g.*, industrial areas) are classified as urban on other grounds.

- (ii) The principal urban centre within each Capital City Statistical Division has been designated the "Metropolitan Area."
- (iii) Population clusters of 1,000 or more persons having a minimum density of 500 persons per square mile have been designated "Urban Centres."

In determining the outer boundary of each Capital City Statistical Division the aim has been to delimit, for at least two or three decades, the region expected to be in close contact with the inner urban area, after making allowances for further urban development, including satellite towns, improvements in transport, and other factors. The Perth Statistical Division comprises the area formed by amalgamation of the former Metropolitan and Swan Statistical Divisions.

A detailed statement on the concepts and criteria adopted in the delimitation of metropolitan areas and other urban centres is contained in *Field Count Statement No. 4—Population: Principal Urban Centres of Australia* published November 1966 by the Commonwealth Statistician, Canberra.

Changes in Local Government Areas, 1 July 1961 to 30 June 1966

A number of boundary changes, many of them minor, occurred between the Censuses of 1961 and 1966. In some cases, however, a boundary change resulted in a change in the population of the local government area. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1966 population figures, the 1961 local government area populations shown in Tables 68 and 69 have been adjusted to the boundaries used in 1966.

In addition to boundary changes, some new Shires were constituted, some municipalities were amalgamated, and there were some changes of name. These are listed below.

The Town of North Fremantle was annexed to the City of Fremantle with effect from 1 November 1961.

Mosman Park, formerly a Shire, was declared to be a Town with effect from 26 January 1962.

The Shire of Coorow was constituted, with effect from 1 July 1962, by severance of territory from the Shires of Carnamah, Dalwallinu and Perenjori.

Melville, formerly a Shire, was declared to be a Town with effect from 28 September 1962.

The Shire of Exmouth was constituted, with effect from 1 January 1964, by severance of territory from the Shire of Gascoyne-Minilya.

The Town of Carnarvon was amalgamated with the Shire of Gascoyne-Minilya to form the Shire of Carnarvon, with effect from 1 March 1965.

The Town of York was amalgamated with the Shire of York, with effect from 15 March 1965, to form one local government area named the Shire of York.

The name of the Shire of Geraldton-Greenough was changed to the Shire of Greenough, with effect from 19 March 1965.

The name of the Shire of Trayning-Kununoppin-Yelbeni was changed to the Shire of Trayning, with effect from 10 September 1965.

NOTE—Minus sign (—) indicates decrease in population.

(a) The names of Cities and Towns are shown in capital letters ; all other local government areas are Shires.
 (b) Subject to revision on the basis of final figures from the 1966 Census. (c) Indicates those local government areas where a boundary change between the 1961 and 1966 Censuses resulted in a change in the population of the local government area ; see also page 48. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1966 population figures, the 1961 local government area populations shown in the table have been adjusted to the boundaries used in 1966.
 (d) Refers to persons (both passengers and crew) who, at midnight on Census night, were enumerated on board ships in Western Australian ports, or ships which had left Australian ports before Census night for ports in Western Australia. It includes also those who were enumerated on long-distance trains, motor coaches or aircraft.

NOTE—Minus sign (—) indicates decrease in population.

- (a) The names of Cities and Towns are shown in capital letters; all other local government areas are Shires.
 (b) Subject to revision on the basis of final figures from the 1966 Census. (c) Indicates those local government areas where a boundary change between the 1961 and 1966 Censuses resulted in a change in the population of the local government area; see also page 43. In order to eliminate population changes due to boundary changes and to provide a comparison with the 1966 population figures, the 1961 local government area populations shown in the table have been adjusted to the boundaries used in 1966.
 (d) Refers to persons (both passengers and crew) who, at midnight on Census night, were enumerated on board ships in Western Australian ports, or ships which had left Australian ports before Census night for ports in Western Australia. It includes also those who were enumerated on long-distance trains, motor coaches or aircraft.
 (e) Comprises the area formed by amalgamation of the former Metropolitan and Swan Statistical Divisions.

No. 70—Urban and Rural Populations (a), Western Australia : Censuses, 1961 and 1966

NOTE—For Metropolitan and other Urban Centres which are delineated by moving boundaries (see letterpress on page 48), boundaries for 1961 have been redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with the 1966 population. The intercensal increase or decrease between 1961 and 1966 may therefore reflect population change within the original 1961 boundary ; urban growth beyond the original boundary ; or the merging of Other Urban areas with the Metropolitan Area.

(a) The figures shown refer to the areas contained within the several Statistical Divisions as they existed at 30 June 1966. (b) Figures subject to revision on the basis of final figures from the 1966 Census. (c) At Censuses prior to 1954, the pearling fleet based on Broome was classified to *Migratory* (see footnote (d) on page 55). The estimated population involved was 2,500 in 1911; 1,500 in 1921; 800 in 1933; and 200 in 1947. From 1954, pearling crews have been included in the population of Broome.
